## C60 DISPACK SYSTEM

ULTRA-CONCENTRATED DETERGENT MANUAL DISHWASHING

### FEATURES

**Physical aspect:** Dark green thick liquid

**Density:** 1.01 gr/cc. approx.

**pH (1% solution in water):** 7-8

**Composition:** Highly foaming and degreasing synergic mixture of nonionic and anionic surfactants, fluidity regulators, skin protective, perfume, colourants and preservatives.

Professional use only

Diluted in water

*It is a highly concentrated liquid product that is applied directly into the mop bucket with our DISPACK ESPECIAL PICAS dosing system, specially designed for manual washing of pots, pans, dishes and all kinds of cookware through immersion and rubbing. It is very comfortable to use thanks to its dosing system and space-saving storage.*

*The choice of concentrated products seeks energy saving and environmental protection, saving energy in their manufacturing process and transport, and less packaging waste is created.*

### PRECAUTIONS

UNDILUTED PRODUCT:

Causes serious eye damage. Causes skin irritation. Safety data sheet available on request.

### PROPERTIES

It is a product designed for our product line ultra-concentrated DISPACK SYSTEM, and therefore it has the highest concentration of active matter. It easily removes dry grease and remains of food from the dishes and cookware, making the subsequent rinsing and draining much easier. The high content of active matter and the balanced combination of high foaming surfactants that it has, make it an essential detergent for manual dishwashing and washing of other utensils used in industrial kitchens.

### INSTRUCTIONS FOR USE

The product C60 DISPACK SYSTEM is designed to be used exclusively with the DISPACK ESPECIAL PICAS dosage system, where it fits properly and an accurate dosing is guaranteed. For washing apply a dose (20 ml) per 50 liters of warm water in the sink, soak the objects, properly scrub, rinse with clean water and leave to air dry. For professional use only. The dosage is preferably applied while filling the sink to ensure a perfect dilution.

### NOTES

For professional use only.

### FIELDS OF APPLICATION

Its exclusive presentation in DISPACK SYSTEM reduces packaging waste, making its recycling easier and it allows a perfect control of product consumption, minimising the required space and its handling. Suitable for use in the food industry. Its use is specially intended for industrial kitchens and restaurants, bars, hotels, etc.
